

Vendor Benefits for LIVE Members

In an effort to provide added value to LIVE membership, we have partnered with a handful of vendors and service providers across OR, WA, & ID who are willing to provide benefits such as discounts and complimentary services to LIVE member wineries and vineyards. We are in discussion with many other vendors and expect this list to grow significantly. These are the vendors in the program currently:

How to use these benefits: Member wineries can begin using these benefits today by simply mentioning your LIVE membership. These vendors have a full list of winery members and will verify your participation.

Please note that some benefits are exclusively for members with certified wineries in an effort to give additional recognition to those who have enrolled in both vineyard and winery certifications. If you are a member vineyard but do not own a member winery, you can feel free to claim the benefit from the member winery that makes your wine. Check with us if you are unsure.

Questions? If you have any questions about these benefits, becoming a Partner in Sustainable Winegrowing, or enrolling in either of our certification programs, please reach out to Isabelle Tobe isabelle@livecertified.org | (503) 717-2261
